*Ancestors of the author, J. Marc Wheat (2014), after the Germanna Descendant Database and B.C. Holtzclaw, Germanna Record Number 5 (1964).

How to Use the Table: Find your ancestor and look along his or her row. Anyone with an H or W in a shared column is a cousin of yours through the husband (H) or wife (W) among the colonists who arrived at Germanna in 1714.

Example: We don't know how Peter Hitt was related to the others colonists. But we do know that his descendants (through his wife Elizabeth Otterbach) are related to every family in the Fischbach, Heimbach, and Otterbach columns because of Elizabeth Otterbach's descent from those three families. Further research needs to be done to learn which descendants of the Cuntze and Weaver families become interrelated in future generations.
